## STRATEGIC REPORT

For the period ended 31 December 2014

---

### PRINCIPAL ACTIVITY AND GENERAL INFORMATION

The principal activity of the Group is the development of coal mines in Indonesia, including the acquisition of economic interests in those mines and potential mines.

The Company was a public but unlisted limited company incorporated and domiciled in England. In December 2013 shareholders voted to re-register the company as a private limited company and this became effective on 14 January 2014.

### CHAIRMAN'S STATEMENT

In November 2013 a restructuring proposal was circulated to all shareholders to undertake the transfer of the Company assets to a Luxembourg company. The resolution was passed but the restructuring had not been formally completed and remains on hold pending clarification of the issues referred to below.

### BUSINESS AND FINANCIAL REVIEW

As advised in the 2013 annual report, during that year a new ministerial law was introduced in Indonesia that effectively accelerates the divestment requirement of shares in foreign owned IUP companies, including the Company's Indonesian subsidiaries. Historically, shares in IUP companies held by foreigners had to be sold down so local entities held 51% of the shares by year 10. This process starts in year 5 and ramps up to 51% by year 10. As a result of the new ministerial law any transfer of the shares in the IUP company accelerates the divestment rule. However, it is still unclear how this new law will be implemented and whether it will affect the restructuring referred to above.

As noted above, the Company approved a restructuring in 2013 that allowed for a share consolidation and approved the transfer of the IUP companies to a new Luxembourg entity. Full details on the restructuring can be found in the restructuring memorandum that was circulated at the time. In summary, the proposal was that the Company's subsidiaries should be held by a Luxembourg company which is held by shareholders in the same proportion as they hold shares in the Company at that time.

The Company continues to face several macroeconomic challenges such as:

- *The potential introduction of a ban on low quality coal imports into China.* The initiative would aim to reduce the environmental side effects, such as air pollution, water shortages and contamination from the use of low rank, high ash and high sulphur coal. If introduced correctly, this should have a positive impact on the Company given the low ash and low sulphur nature of the Jambi coal. The Jambi coal also benefits from not needing to be washed. It is our view that if the ban is introduced wisely it will be supportive to Nusantara in the long run as the Jambi coal should become increasingly attractive for end user blending purposes. No decision has yet been made on this topic.
- *A potential increase in the royalty on coal exports to 10%.* The planned increase in the royalty has been indefinitely postponed due to the persistent coal market downturn. Currently Jambi coal is subject to a 5% royalty. Should the increase occur, this will significantly impact the economics of the Jambi mine.
- *Price of coal.* This continues to remain the major issue facing the Company with coal prices falling by c20% in 2014. With no abatement in 2015, coal has declined by a further 10% over the course of the year. Analysts continue to revise down their coal price forecasts in light of continued uncertainty around future supply and demand dynamics, especially from China. At the moment thermal coal remains in a position of oversupply with no indications of price support from analysts for the next two years.

## STRATEGIC REPORT *(continued)*

For the period ended 31 December 2014

---

### BUSINESS AND FINANCIAL REVIEW *(continued)*

- *Slower growth in China.* The transfer of power in China following the 2013 elections has led to a focused rebalancing of the economy towards consumption and away from exports. This has dented current growth plans and has put pressure on the Chinese economy. The opaque nature of lending and the potential hangover from the credit stimulus of 2008 and 2009 makes it increasingly difficult to gauge what the future may look like for the Chinese economy.
- *Indonesia macroeconomic environment.* Local government policy towards mining companies remains challenging in light of the Indonesian elections, which took place in 2014. It is unclear what impact this could have on the Company and Indonesia remains a challenging environment from a regulatory and political perspective for foreign companies. The issues remain broadly similar to those faced by the Company in the past. The markets were supportive of the winner, although what view the new government actually takes on foreign investors is less than clear.

As is evident from the above, the economics of the Jambi asset are highly dependent on a number of macroeconomic issues.

The Company would have liked to report a more positive update on the goal of moving towards production but unfortunately the current coal price has prevented the Company from doing so.

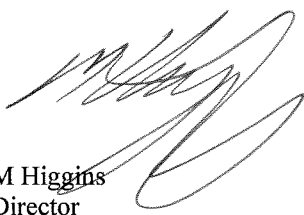

The Company continues to believe in the demand fundamentals of the Jambi coal and that the coal price should start to strengthen in the medium to long term, although does not expect prices to return to levels seen in 2010 and 2011. Despite the challenging environment, the Company remains positive on the longer term fundamentals of the asset and believes in its economic viability.

During 2014 the forestry permits or Izin Pinjam Pakai ("IPP") licenses for PT Anugerah Jambi Coalindo ("AJC") and PT Bakti Sarolangun Sejahtera ("BSS") were received by the Company. In addition to the IPPs, the Company has also received clean and clear certificates, stating that the Company's IUP permits are up to date and have been reviewed by the central authorities in Jakarta.

Since the beginning of 2014 the Company has put in place a revolving credit facility with Ianto Finance Limited for up to \$35m, the proceeds of this loan have been used to fund working capital and acquire land to support mining and mining services should the company be able to start operations.

It is not currently expected that early stage coal production will start without a material change to the macro environment and settlement of local issues. However, the Company continues to further refine its business model so that it is ready to take advantage of a move in coal prices should this materialise. Although with current coal prices as low as they are, this continues to make forecasting the start of production increasingly difficult.

The legal case against the former Chief Financial Officer ("CFO") and Chief Executive Officer ("CEO") was concluded in October 2015.

M Higgins  
Director

## DIRECTORS' REPORT

For the period ended 31 December 2014

---

The directors present their report together with the audited financial statements of the Group for the year ended 31 December 2014.

### DIVIDEND

The directors do not recommend payment of a dividend.

### GOING CONCERN

The financial position of the Group, its cash flows and liquidity are described elsewhere in this Report and Accounts. The Group is currently in a development phase and does not have any production assets. At the year ended 31 December 2014 the Group had cash and cash equivalents of US\$1.9m.

The Company is reliant on its major shareholder to provide continued financial support with its current operations. During 2014 and 2015 borrowings have been put in place for up to \$35m from Ianto Finance Limited for further investment and to continue to support the operations of the Group. These borrowings mature in June 2016. The directors consider the Group to be a going concern for at least twelve months from the date of approval of these financial statements as Ianto has agreed in principle to underwrite a rights issue to be called at a time that the Board shall approve.

### RISK REVIEW

The risks inherent in the Group's exploration business are kept under review by the Board. Shareholders should be aware that mineral exploration businesses generally are at the higher risk end of the investment spectrum, but that such risk is matched by potentially high returns to investors, if management succeeds in delivering sustained profitable mining operations.

Specific, identified key risks at 31 December 2014 include:

#### a) Liquidity Risk

The Group has various outgoings in connection with its activities but is not yet in production and, therefore, relies on funding from investors. Should investors cease to fund the Group, it will run out of money. However this remains a key risk to the business in the future.

#### b) Project Technical Risk

The directors are satisfied that the exploration works completed in previous years demonstrate that the project has a large, valuable deposit of thermal coal, lying in a relatively easily mined deposit. The economic viability of the project is, of course, dependant on costs of the overall project and prices obtainable in the market for the specific product.

#### c) Indonesia Legal/Operating Risk

Many of the world's best remaining potential mines lie in countries that carry higher than average legal and operating risk. Indonesia is one of these countries. The challenges of operating in the country are generally understood by investors, especially those familiar with the coal mining sector, as Indonesia is one of the world's largest exporters of thermal coal. Recent changes in mining law have helped clarify the regulatory environment and enabled the Group to acquire direct ownership rights over the mining concessions but uncertainties remain in what is generally a difficult operating environment.

# Nusantara Energy Limited

## DIRECTORS' REPORT *(continued)*

For the period ended 31 December 2014

---

### RISK REVIEW *(continued)*

#### d) Permitting Risk

The permitting process in Indonesia is quite complex and rigidly applied. This is exacerbated by the recent changes in law mentioned under preceding Risk c), since the regime allowing foreign ownership of mining concessions is still relatively young and under implementation.

#### e) Currency Risk

Currency risk exists in any business operating outside its home currency area. The Group has a conventional range of techniques in place for managing that risk. In general, known specific significant future exchange obligations are anticipated at the time of the commitment arising by converting funds raised in sterling into the appropriate currency in which the future commitment falls due. The Group does not speculate on currency movements. The Group operates in US dollars.

#### f) Commodity Price Risk

The Group has economic interests in coal mining concessions and is therefore exposed to price fluctuations in the market for Indonesian thermal coal. Coal prices have been increasingly volatile in recent years and fell approximately 20% over the course of 2014. Nevertheless, the directors believe the project should still be financially viable in the medium to long term, since strong underlying demand from growing Asian economies for coal-generated electricity should help to stabilise Indonesian thermal coal prices over time.

### DIRECTORS

The directors who served during the year were:

M Higgins  
C Putt  
T Childs

# Nusantara Energy Limited

## DIRECTORS' REPORT *(continued)*

For the period ended 31 December 2014

---

### STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare financial statements in accordance with International Financial Reporting Standards as adopted by the European Union (IFRSs). The financial statements are required by law to give a true and fair view of the state of affairs of the Group and the Company and of the profit or loss of the Group for that period. In preparing these financial statements, the directors are required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgements and estimates that are reasonable and prudent;
- State that applicable accounting standards have been followed; and
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group will continue in business.

The directors are responsible for keeping adequate accounting records that disclose with reasonable accuracy at any time the financial position of the Company and the Group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

So far as each of the directors is aware at the time the report is approved:

- There is no relevant audit information of which the Company's auditors are unaware, and
- The directors have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

# Nusantara Energy Limited

## DIRECTORS' REPORT *(continued)*

For the period ended 31 December 2014

---

### POST BALANCE SHEET EVENTS

Over the course of 2014 and 2015, the Company has put in place borrowings of up to \$35m from Ianto Finance Limited for further investment and to continue to support the operations of the Company. The borrowings have a coupon of 25% per annum and mature in June 2016.

Consultants are advising on an ongoing basis to improve the operations of the Company and to enable the start of production when coal prices permit.

### GOVERNANCE

Following the AGM in December 2013, the board was restructured with Chris Putt and Tim Childs joining, broadly around the same time Heather Lawrence, Antony Butler and Neil McLoughlin left the board.

### AUDITORS

Grant Thornton UK LLP offer themselves for reappointment as auditors in accordance with Section 489 (4) of the Companies Act 2006.

These financial statements were approved by the Board on 25 April 2016.

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF NUSANTARA ENERGY LIMITED

---

We have audited the Group financial statements of Nusantara Energy Limited for the year ended 31 December 2014 which comprise the consolidated statement of comprehensive income, the consolidated statement of financial position, the consolidated statement of changes in equity, the consolidated cash flow statement and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Respective responsibilities of directors and auditors**

As explained more fully in the Directors' Responsibilities Statement set out on page 7, the directors are responsible for the preparation of the Group financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit the Group financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

### **Scope of the audit of the financial statements**

A description of the scope of an audit of financial statements is provided on the Financial Reporting Council's (FRC) website at [www.frc.org.uk/auditscopeukprivate](http://www.frc.org.uk/auditscopeukprivate).

### **Opinion on financial statements**

In our opinion the Group financial statements:

- give a true and fair view of the state of the Group's affairs as at 31 December 2014 and of its loss for the year then ended;
- have been properly prepared in accordance with IFRS as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

# Nusantara Energy Limited

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF NUSANTARA ENERGY LIMITED *(continued)*

---

### **Opinion on other matters prescribed by the Companies Act 2006**

In our opinion the information given in the Strategic Report and the Directors' Report for the financial year for which the Group financial statements are prepared is consistent with the Group financial statements.

### **Matters on which we are required to report by exception**

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit

### **Other matter**

We have reported separately on the Parent Company financial statements of Nusantara Energy Limited for the year ended 31 December 2014.

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2014

---

### **1 ACCOUNTING POLICIES**

#### **1.1 Basis of preparation of financial statements**

These financial statements present information about the Group for the year ended 31 December 2014.

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union.

The financial statements have been prepared under the historical cost convention.

The financial statements are presented on the going concern basis and the directors believe there are sufficient resources to continue trading for at least twelve months from the date of approval of these financial statements.

#### **1.2 Going concern**

The consolidated financial statements have been prepared on the going concern basis.

The financial position of the Group, its cash flows and liquidity are described elsewhere in this Report and Accounts. The Group does not currently have any production assets and is in a development phase in which it is reliant on external sources of funds. At the year ended 31 December 2014 the Group had cash and cash equivalents of US\$1.9m.

The Company has put in place borrowings of up to \$35m from Ianto Finance Limited during 2014 and 2015 for further investment and to continue to support the operations of the Group. The loans have a 25% coupon compounding annually and mature in June 2016.

In view of the ongoing support from its major shareholder, and the fact that the Group has sufficient funds to continue its operations for the foreseeable future, the directors consider the Group to be a going concern for at least twelve months from the date of approval of these financial statements as Ianto has agreed in principle to underwrite a rights issue to be called at a time that the Board shall approve.

# Nusantara Energy Limited

## NOTES TO THE FINANCIAL STATEMENTS *(continued)*

For the year ended 31 December 2014

---

### **1 ACCOUNTING POLICIES *(continued)***

#### **1.3 Basis of consolidation**

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries) made up to 31 December 2014. Control is achieved where the Company has the power to govern the financial statements and operating policies of an investee entity so as to obtain benefits from its activities.

The accounting policies of the subsidiary are uniform with the Parent Company. The results of the subsidiary are included in the consolidated financial statements from the effective date of acquisition.

All intra-Group transactions, balances, income and expenses are eliminated on consolidation unless there are indicators of impairment.

The minority interest share of any loss is restricted to the level of the minority interest investment.

# Nusantara Energy Limited

## NOTES TO THE FINANCIAL STATEMENTS *(continued)*

For the year ended 31 December 2014

---

### **1 ACCOUNTING POLICIES *(continued)***

#### **1.4 Foreign currencies**

The consolidated financial statements are presented in US dollars. It is anticipated that US dollars will be the trading currency of the Group once production commences

In December 2013, the Board passed a resolution to redenominate the share capital to US dollars and to change the functional currency of the Parent Company from sterling to US dollars. Also, on 1 January 2013, the functional currency of PT Anugerah Jambi Coalindo (AJC), PT Bakti Sarolangun Sejahtera (BSS) and PT Sinar Anugerah Sukses (SAS), three of the Group subsidiaries, was changed from Indonesian rupiah to US dollars.

Prior year numbers for the Parent Company have been converted from sterling to US dollars at the prevailing exchange rates. Prior year numbers for the Indonesian group subsidiaries have been converted from Indonesian rupiah to US dollars at the prevailing exchange rates.

Foreign currency transactions are translated into the functional currency of the respective Group entity, using the exchange rates prevailing at the dates of the transactions (spot exchange rate). Foreign exchange gains and losses resulting from the settlement of such transactions and from the re-measurement of monetary items at year-end exchange rates are recognised in profit or loss.

Non-monetary items measured at historical cost are translated using the exchange rates at the date of the transaction (not retranslated). Non-monetary items measured at fair value are translated using the exchange rates at the date when fair value was determined.

In the Group's financial statements, all assets, liabilities and transactions of Group entities with a functional currency other than US dollars are translated into US dollars upon consolidation. As described above, the functional currency of the Parent and Group subsidiaries, AJC, BSS and SAS, the Group have changed from sterling and Indonesian rupiah, respectively, to US dollars during the reporting period.

On consolidation, assets and liabilities have been translated into US dollars at the closing rate at the reporting date. Income and expenses have been translated into the Group's presentation currency at the average rate over the reporting period. Exchange differences are charged/credited to other comprehensive income and recognised in the currency translation reserve in equity. On disposal of a foreign operation, the cumulative translation differences recognised in equity are reclassified to profit or loss and recognised as part of the gain or loss on disposal.

#### **1.5 Employee benefits**

Defined contribution pension scheme: The pension costs charged against profits are the contributions payable to the scheme in respect of the accounting period.

# Nusantara Energy Limited

## NOTES TO THE FINANCIAL STATEMENTS *(continued)*

For the year ended 31 December 2014

---

### **1 ACCOUNTING POLICIES *(continued)***

#### **1.6 Share based payments**

All goods and services received in exchange for the grant of any share-based payment are measured at their fair values. Where employees are rewarded using share-based payments, the fair values of employees' services are determined indirectly by reference to the fair value of the instrument granted to the employee. This fair value is appraised at the grant date and excludes the impact of non-market vesting conditions. Warrants granted by the Group vest immediately after grant. All equity-settled share-based payments are ultimately recognised as an expense in the statement of comprehensive income with a corresponding credit to retained losses in the statement of financial position. If vesting periods or other non-market vesting conditions apply, the expense is allocated over the vesting period, based on the best available estimate of the number of share options expected to vest. Estimates are revised subsequently if there is any indication that the number of share options expected to vest differs from previous estimates. Any cumulative adjustment prior to vesting is recognised in the current period. No adjustment is made to any expense recognised in prior periods if share options that have vested are not exercised. Upon exercise of share options, the proceeds received net of attributable transaction costs are credited to share capital and, where appropriate, share premium.

The fair value has been arrived at using the Black-Scholes model. The key inputs to these models include: exercise price, share price volatility, dividend yield (if any), lapse rate, etc.

#### **1.7 Taxation**

Income tax expense represents the sum of the tax currently payable.

Current tax is the tax currently payable based on taxable profit for the year using tax rates enacted or substantially enacted at the statement of financial position date.

Deferred tax is recognised on the difference between carrying values of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent it is probable that a taxable profit will be available against which deductible temporary differences can be utilised.

Tax losses which are available to be carried forward as well as other income tax credits to the Group are assessed for recognition as deferred tax assets.

Deferred tax assets and liabilities are calculated at tax rates that are expected to apply to their respective period of realisation. Deferred tax is charged or credited to the statement of comprehensive income, except when it relates to items charged directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets relating to brought forward tax losses are not yet recognised by the Group, but they will be recognised when it is probable that taxable profit will be available in the future.

#### **1.8 Operating leases**

Rentals under operating leases are charged on a straight line basis over the lease term.

# Nusantara Energy Limited

## NOTES TO THE FINANCIAL STATEMENTS *(continued)*

For the year ended 31 December 2014

---

### **1 ACCOUNTING POLICIES *(continued)***

#### **1.9 Interest income and expense**

Interest income and expenses are accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable. Interest income and expenses arising from interest bearing financial instruments are recognised in the statement of comprehensive income using the effective interest method on the bases of the cost of the financial instruments.

#### **1.10 Exploration and evaluation assets**

All costs associated with mineral exploration and investments are capitalised on a project-by-project basis, pending determination of the feasibility of the project. Costs incurred include appropriate technical and administrative expenses but not general overheads. Such capitalised expenditure is reviewed for impairment at each statement of financial position date.

When the technical feasibility and commercial viability of extracting a mineral resource are demonstrable, the related expenditures will be transferred to mining assets and amortised over the estimated life of the commercial ore reserves on a unit of production basis. Where a licence is relinquished or a project abandoned, the related costs are written off. Where the Group maintains an interest in a project, but the value of the project is considered to be impaired, a provision against the relevant capitalised costs will be raised.

#### **1.11 Property, Plant and Equipment**

Property, plant and equipment are held at historical cost net of depreciation and any provision for impairment. Depreciation is calculated to write down the cost less estimated residual value of all property, plant and equipment over their estimated useful economic lives. The useful economic lives are assessed at least annually. The rates generally applicable are:

Motor vehicles 33%  
Plant & equipment 25%  
Computer equipment 50%  
Fixtures, fittings & office equipment 20%

Material residual value estimates are updated as required, but at least annually. Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount.

## NOTES TO THE FINANCIAL STATEMENTS *(continued)*

For the year ended 31 December 2014

---

### **1 ACCOUNTING POLICIES *(continued)***

#### **1.12 Capital risk management**

The Group's capital risk management objectives are:

- To ensure the Group's ability to continue as a going concern;
- To increase the value of the assets of the business; and
- To maximise the return to shareholders through optimisation of debt equity balance, at the time the assets are put into full production

These objectives will be achieved by identifying the right exploration projects, adding value to these projects and ultimately taking them through to production and cash flow, either with partners or by our own means.

The Group monitors capital on the basis of the carrying amount of equity plus its Group loans, less cash and cash equivalents as presented on the face of the consolidated statement of financial position.

The Group sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders (in the future), return capital to shareholders, issue new shares, or sell assets to reduce debt.

#### **1.13 Reserves**

Equity comprises the following:

- "Share capital" is the nominal value of equity shares
- "Share premium" represents the excess over nominal value of the fair value of consideration received for equity shares, net of expenses of the share issue.
- "Other reserves" represents a distributable reserve arising as a result of the reduction of the Company's share premium account in January 2014.
- "Translation reserve" represents the differences arising from translation of investments in overseas subsidiaries
- "Retained deficit" represents cumulative retained losses attributable to holders of ordinary share of the Company

## NOTES TO THE FINANCIAL STATEMENTS *(continued)*

For the year ended 31 December 2014

---

### **1 ACCOUNTING POLICIES *(continued)***

#### **1.14 Financial instruments**

The Group does not use structured financial instruments. Currency transactions are carried out using spot rates from Group bankers, and any surplus funds are held on short term deposit.

Financial assets and liabilities are recognised on the Group's statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

All of the Group's financial assets are classified as loans and receivables. All of the Group's financial liabilities are classified as other payables carried at amortised cost.

##### **(i) Trade and other receivables**

Trade receivables and loans are measured initially at fair value and subsequently at amortised cost using the effective interest method, less any impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

##### **(ii) Investments**

Investments are recognised where a purchase of an investment is under contract and are initially measured at cost, including transaction costs. Provisions against investments are made when there is evidence that the recoverable amount is lower than the carrying amount, for example when the trading activity and profitability of the investee is much reduced.

##### **(iii) Cash and cash equivalents**

Cash and cash equivalents comprises cash on hand which is readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

##### **(iv) Trade and other payables**

Trade payables are initially measured at fair value and subsequently at amortised cost using the effective interest rate method.

##### **(v) Financial liabilities and equity**

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

### **1 ACCOUNTING POLICIES *(continued)***

#### **1.15 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Group**

No material changes to accounting policies arose as a result of new and amended standards adopted by the Group.

The following standards and amendments to existing standards have been published and are mandatory for the Group's accounting periods beginning on or after 1 January 2015 or later periods, but the Group has not early adopted them:

- IFRS 9 Financial Instruments (effective 1 January 2015)
- Mandatory Effective Date and Transition Disclosures – Amendments to IFRS 9 and IFRS 7 (effective 1 January 2015)

As far as can be determined at this stage, the directors anticipate that the adoption of these standards and interpretations in future periods will have no material impact on the financial statements of the Group. The Group does not intend to apply any of these pronouncements early.

### **1 ACCOUNTING POLICIES *(continued)***

#### **1.16 Impairment testing of goodwill, other intangible assets and property, plant and equipment**

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are largely independent cash inflows (cash-generating units). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level. Goodwill is allocated to those cash-generating units that are expected to benefit from synergies of the related business combination and represent the lowest level within the Group at which management monitors goodwill.

Cash-generating units to which goodwill has been allocated are tested for impairment at least annually. All other individual assets or cash-generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount, which is the higher of fair value less costs to sell and value-in-use. To determine the value-in-use, management estimates expected future cash flows from each cash-generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Group's latest approved budget, adjusted as necessary to exclude the effects of future reorganisations and asset enhancements. Discount factors are determined individually for each cash-generating unit and reflect their respective risk profiles as assessed by management.

Impairment losses for cash-generating units reduce first the carrying amount of any goodwill allocated to that cash-generating unit. Any remaining impairment loss is charged pro rata to the other assets in the cash-generating unit. With the exception of goodwill, all assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment charge is reversed if the cash-generating unit's recoverable amount exceeds its carrying amount.

# Nusantara Energy Limited

## NOTES TO THE FINANCIAL STATEMENTS *(continued)*

For the year ended 31 December 2014

---

### **2 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF UNCERTAINTY**

In the application of the Group's accounting policies the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### **Critical judgements in applying accounting policies**

The following are the critical judgements, apart from those involving estimations, that the directors have made in the process of applying the entity's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

#### **Exploration and evaluation assets**

Exploration and evaluation costs are accounted for in accordance with IFRS6 "Exploration for and evaluation of mineral resources" and where the recognition criteria are met the costs are capitalised as intangible assets.

#### **Key sources of estimation uncertainty**

##### **Impairment of intangible assets**

The Group determines that exploration costs are capitalised at the point the Group has a valid exploration licence. The recovery of the cost of the Group's exploration projects is reviewed in the light of future production estimates based upon ongoing geological studies. Over the longer term the actual mineable resources achieved may vary significantly from the current estimates.

##### **Impairment of assets**

The Group assesses impairment at each reporting date by evaluating conditions specific to the Group that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined.

##### **Fair value of financial instruments**

The Group has both financial assets and liabilities which are recognised at fair value and subsequently are measured at amortised cost. Where estimates of receipts or payments are revised their carrying value is adjusted to reflect actual and revised estimated cash flows. The adjustment is recognised as income or expense in profit or loss.

Deferred tax	(5,107)	(2,136)
<b>Total tax</b>	<b>92,166</b>	<b>44,848</b>

The tax incurred for the period is lower than the standard rate of corporation tax of 21% (2013: 23%) in the UK

	Year to 31 December 2014 US\$	Year to 31 December 2013 US\$
Loss on ordinary activities before tax	(7,121,167)	(2,568,745)
Loss on ordinary activities multiplied by the relevant standard rate of corporation tax in the UK of 21% (2012: 23%)	(1,495,445)	(590,811)
<b>Effects of:</b>		
Expenses not deductible for tax purposes	48,182	127,898
Brought forward tax losses utilised against current year liabilities	1,034,781	(13,973)
Overseas taxation chargeable	123,887	46,984
Adjustment for deferred tax from prior year loss	365,041	451,561
Difference in effective tax rate	(817)	(172)
Currency losses / (gains)	16,537	23,361
<b>Total charge for the period</b>	<b>92,166</b>	<b>44,848</b>

#### Factors that may affect future tax charges

The Group has tax losses carried forward of US\$22,625,981 (2013: US\$18,385,194) that are available for offset against future taxable profits.

#### Unrecognised deferred tax assets

The Group has a deferred tax asset of US\$4,751,456 (2013: US\$4,228,595) due to taxable losses carried forward. This has not been recognised in the Group accounts due to the uncertainty of the realisation of this asset in the foreseeable future.

# Nusantara Energy Limited

## NOTES TO THE FINANCIAL STATEMENTS *(continued)*

For the year ended 31 December 2014

9	INTANGIBLE ASSETS	At 31 December 2014 US\$	At 31 December 2013 US\$	At 31 December 2012 US\$
	<b>Exploration and evaluation assets</b>			
	<b><i>Cost and net book value</i></b>			
	At 1 January	12,440,362	8,207,697	7,645,341
	Additions	744,748	4,232,665	562,356

## NOTES TO THE FINANCIAL STATEMENTS *(continued)*

For the year ended 31 December 2014

### 13 SHARE CAPITAL

	At 31 December 2014 US\$	At 31 December 2013 US\$	At 31 December 2012 US\$
<b>Authorised</b>			
21,211,381 Ordinary shares of US\$0.16103 each	3,415,669	3,415,669	3,248,698
<b>Allotted, called up and fully paid</b>			
21,211,381 (2013: 21,211,381) Ordinary shares of US\$0.16103 each	3,415,669	3,415,669	3,333,835

On 10 December 2013, the Company passed a resolution that each of the issued ordinary shares of £0.001 each in the capital of the Company be consolidated into 100 ordinary shares of £0.10 each. Such ordinary shares of £0.10 each having the same rights and being subject to the same restrictions as the existing ordinary shares of £0.001 each in the Company, as set out in the articles of the Company.

Also on 10 December 2013, the Company passed a resolution that the nominal value of each issued ordinary share of £0.10 in the capital of the Company be redenominated into US dollars using the mid market £/\$ exchange rate of 15 November 2013 of US\$0.16103 to take place immediately after the consolidation of ordinary shares

No shares were issued in 2014. During 2013, the Company issued 1,058,196 ordinary shares of US\$0.16103 for a total consideration of US\$1,862,425 excluding share issue costs, and including a share premium of US\$1,692,024. These were issued in settlement of a trade creditor's invoice.

At the General Meeting held on 10 December 2013 a special resolution was passed that the 2012 share premium account of the Company be reduced from \$74,585,985 to \$0, and the amount by which the share premium account is so reduced be credited to a reserve effective on 14 January 2014. This has been called "other reserves".

The company granted warrants to subscribe for shares as follows:

	Exercise Price	At 1 January 2014 Number	Granted in year Number	At 31 December 2014 Number
<b>Warrants</b>				
Warrants granted September 2012	0.25p	168,181,818	-	168,181,818
Warrants granted October 2014		-	11,750,000	11,750,000
		168,181,818	11,750,000	179,931,818

As a result of the 2012 share offer the Company issued warrants to the underwriter, Ianto Finance Limited. The warrants granted in September 2012 will expire on 30 September 2017.

As a result of the 2014 loan agreement the Company issued warrants to the lender, Ianto Finance Limited. The warrants were granted from October 2014 in line with loan drawdowns and will expire in October 2019. Exercise price is two times the rights issue.

For the year ended 31 December 2014

---

### **17 RELATED PARTY TRANSACTIONS**

During the year the Company borrowed US\$24,306,489 (2013: US\$Nil) from Ianto Finance Limited. At the end of the year the outstanding balance, including accrued interest of US\$3,522,604 (2013: US\$Nil), was US\$27,829,093 (2013: US\$Nil)

During the year the Company borrowed US\$193,511 (2013: US\$Nil) from Broughton Limited. At the end of the year the outstanding balance, including accrued interest of US\$31,848 (2013: US\$Nil), was US\$225,359 (2013: US\$Nil)

During the year fees of US\$16,025 (2013: US\$32,501) were incurred for payment to Ianto Finance Limited in relation to legal fees. At the end of 2014 all outstanding balances had been paid (2013: US\$Nil)

During the year fees of US\$Nil (2013: US\$9,054) were incurred for payment to Meyer Hosking, a company of which Mr B Hosking is a director, in relation to recruitment and geological services. At the end of 2014 all outstanding balances had been paid (2013: US\$Nil).

During the year fees of US\$Nil (2013: US\$4,527) were incurred for payment to Arex Consulting, a company of which Mr A Butler is a director. This amount was included in the Staff Costs note. At the end of 2014 all outstanding balances had been paid (2013: US\$Nil).

During the year fees of US\$Nil (2013: US\$42,554) were incurred for payment to Mr A Butler. This amount was included in the Staff Costs note. At the end of 2014 all outstanding balances had been paid (2013: US\$Nil).

During the year fees of US\$Nil (2013: US\$ 23,188) were incurred for payment to Mr N McLouglin. This amount was included in the Staff Costs note. At the end of 2014 all outstanding balances had been paid (2013: US\$Nil).

At the end of 2014 US\$203,577 (2013: US\$215,563) remains payable to Med Mining and Minerals Ltd, a company which Mr M Groat is a director, in relation to consulting services provided by Mr M Groat. This amount is included in provisions. These fees were incurred in 2011 and 2012.

At the end of 2014 US\$17,438 (2013: US\$18,465) remains payable to Kew Kars, a company of which Mr R Healey is a director, in relation to chauffeur services. These fees were incurred in 2010 and 2011.

Since the share offer transaction in 2012, no Ianto representatives have received remuneration for any services they have provided to the Company.

### **18 ULTIMATE CONTROLLING PARTY**

Following shareholder approval of the Ianto transaction at a General Meeting of the Company on 28 September 2012 and subsequent completion of the £18,500,000 share offer underwritten by Ianto, the ultimate controlling party became Ianto Finance Limited.

### **19 POST BALANCE SHEET EVENTS**

Other post balance sheet events are discussed in the Director's report.

# Nusantara Energy Limited

## NOTES TO THE FINANCIAL STATEMENTS *(continued)*

For the year ended 31 December 2014

### 20 FINANCIAL INSTRUMENTS

	At 31 December 2014 US\$	At 31 December 2013 US\$	At 31 December 2012 US\$
<b>Categories of financial instruments</b>			
<b>Financial Assets</b>			
Loans and receivables	84,737	4,043	44,471
Cash and cash equivalents	1,916,033	4,591,660	8,859,005
	<u>2,000,770</u>	<u>4,595,703</u>	<u>8,903,476</u>
<b>Financial Liabilities</b>			
At amortised cost – falling due within one year	30,470,910	2,377,382	1,671,307

The Group's principal financial asset is cash, whilst the financial liabilities of the Group are wholly comprised of trade and other payables. The carrying amount of the Group's financial assets and liabilities are stated at their approximate fair value.

The Group did not hold or issue any financial instruments for trading purposes at the statement of financial position date.

The Group has not pledged any of its financial assets as collateral for its financial liabilities. The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, liquidity risk and credit risk.

#### (a) Interest Rate Risk

The Group's income and operating cash flows are substantially independent of changes in market interest rates. The Group's exposure to interest rate risk related primarily to cash and cash equivalents, as the Group does not hold any interest bearing borrowings, hence the interest rate risk is considered to be immaterial.

#### (b) Foreign Currency Risk

Foreign currency denominated financial assets and liabilities, translated into US\$ as the closing rate, are as follows:

	GBP US\$'000s	IDR US\$'000s
<b>Financial Assets</b>		
Loans and receivables	59	13
Cash and cash equivalents	15	637
	<u>74</u>	<u>650</u>
<b>Financial Liabilities</b>		
Trade and other payables	505	1,597

# Nusantara Energy Limited

## NOTES TO THE FINANCIAL STATEMENTS *(continued)*

For the year ended 31 December 2014

---

### 20 FINANCIAL INSTRUMENTS *(continued)*

#### (b) Foreign Currency Risk *(continued)*

The following information illustrates the sensitivity of the net result for the year and equity in regards to the Group's financial assets and liabilities and the sterling/US dollar and sterling/Indonesian rupiah exchange rates, on the assumption that all consolidated statement of comprehensive income sensitivities also impact upon equity.

The information below assumes a +/- 19% change in the US dollar/sterling and a +/- 32% US dollar/Indonesian rupiah exchange rate for the period ended 31 December 2014. These percentages have been based on the approximate average market volatility in exchange rates in the previous 22 months. Bearing in mind current economic conditions and the financial outlook both in the UK and throughout Europe, the Board is of the opinion that, as far as it is possible to predict future currency movements, historical exchange movements over the last 22 month provide a reasonable estimation of possible future fluctuations in exchange rates.

If the US dollar had weakened / strengthened against sterling by 19% the following impact would have resulted – net result for the year up by US\$5,000, down by US\$5,000 respectively, and equity up by US\$5,000, down by US\$5,000 respectively.

If the US dollar had weakened / strengthened against the Indonesian rupiah by 32% the following impact would have resulted – net result for the year up by US\$157,000, down by US\$157,000 respectively, and equity down by US\$157,000, up by US\$157,000 respectively.

The Group undertakes transactions principally in sterling and US dollar. Whilst the Group continually monitors its exposure to movements in currency rates, it does not utilise hedging instruments to protect against currency risks. The main currency exposure risk to the Group is in relation to advances denominated in US dollars. The currency risk arising on items denominated in Indonesian rupiah is considered to be immaterial.

#### (c) Liquidity Risk

An objective of the Group is to manage its funding risk to ensure that it can meet its financial obligations as and when they fall due. At the year end there was no debt outstanding. As the Group operates, it will incur costs which will need to be covered by liquid funds, so although there is no risk at the year end, the Group will continue to be exposed.

#### (d) Credit Risk

The Group's maximum exposure to credit risk is US\$25,101,233 (2013: US\$4,720,209).

In relation to cash and cash equivalents, the Group manages its credit risk by holding surplus funds in high creditworthy institutions, and maintains minimum balances with financial institutions in remote locations.

The principal credit risk is attributable to trade receivables being advances made to trading partners in Indonesia in respect of future royalties payable. The Group continues to monitor its credit exposure in this matter and management are satisfied that there are no doubtful receivables in this period for which the Group has not made provision.

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF NUSANTARA ENERGY LIMITED

---

We have audited the Parent Company financial statements of Nusantara Energy Limited for the year ended 31 December 2014 which comprise the Parent Company balance sheet, the Parent Company reconciliation of movements in shareholders' funds and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Respective responsibilities of directors and auditors**

As explained more fully in the Directors' Responsibilities Statement set out on page 7, the directors are responsible for the preparation of the Parent Company financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit the Parent Company financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

### **Scope of the audit of the financial statements**

A description of the scope of an audit of financial statements is provided on the Financial Reporting Council's (FRC) website at [www.frc.org.uk/auditscopeukprivate](http://www.frc.org.uk/auditscopeukprivate).

### **Opinion on financial statements**

In our opinion the Parent Company financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2014;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

# Nusantara Energy Limited

## INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF NUSANTARA ENERGY LIMITED *(continued)*

---

### **Opinion on other matter prescribed by the Companies Act 2006**

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the Parent Company financial statements.

### **Matters on which we are required to report by exception**

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the Parent Company, or returns adequate for our audit have not been received from branches not visited by us; or
- the Parent Company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

### **Other matters**

We have reported separately on the Group financial statements of Nusantara Energy Limited for the year ended 31 December 2014.

## COMPANY NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2014

---

### **1 SIGNIFICANT ACCOUNTING POLICIES**

The separate financial statements of the Company are presented as required by the Companies Act 2006. As permitted by that Act, the separate financial statements have been prepared in accordance with all applicable UK accounting standards. The principal accounting policies which differ from those set out in note 1 to the consolidated financial statements are noted below.

#### **1.1 Basis of preparation of financial statements**

These financial statements present information about the Company for the year ended 31 December 2014 as an individual entity. The Parent Company has taken advantage of section 408 of the Companies Act 2006 and has not included its own profit and loss account in these financial statements. These financial statements present information about the Company for the year ended 31 December 2014.

A consolidated cash flow statement has been included in the consolidated Group financial statements. The Company has therefore taken advantage of the exemption under FRS1 (Revised 1996) "Cash flow statements" not to produce a cash flow statement.

#### **1.2 Going Concern**

These financial statements have been prepared on the going concern basis.

The financial position of the Company, its cash flows and liquidity are described elsewhere in this Report and Accounts. The Company does not currently have any production assets and is in a development phase in which it is reliant on external sources of funds. At the year ended 31 December 2014 the Group had cash and cash equivalents of US\$1.0m.

The Company has put in place borrowings of up to \$35m from Ianto Finance Limited during 2014 and 2015 for further investment and to continue to support the operations of the Group. The borrowings have a coupon of 25% compounding annually and mature in June 2016.

In view of the ongoing support from its major shareholder, and the fact that the Company has sufficient funds to continue its operations for the foreseeable future, the directors consider the Company to be a going concern for at least twelve months from the date of approval of these financial statements as Ianto has agreed in principle to underwrite a rights issue to be called at a time that the Board shall approve.

# Nusantara Energy Limited

## COMPANY NOTES TO THE FINANCIAL STATEMENTS *(continued)*

For the year ended 31 December 2014

---

### **1 SIGNIFICANT ACCOUNTING POLICIES *(continued)***

#### **1.3 Investments**

Investments in subsidiaries are valued at cost less provision for impairment.

#### **1.4 Operating leases**

Rentals under operating leases are charged on a straight line basis over the lease term.

Benefits received and receivable as an incentive to sign an operating lease are recognised on a straight line basis over the period until the date the rent is expected to be adjusted to the prevailing market rate.

#### **1.5 Deferred taxation**

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.

#### **1.6 Foreign currencies**

The financial statements are presented in US dollars. It is anticipated that US dollars will be the trading currency of the Group once production commences.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions (spot exchange rate). Foreign exchange gains and losses resulting from the settlement of such transactions and from the re-measurement of monetary items at year-end exchange rates are recognised in profit or loss.

Non-monetary items measured at historical cost are translated using the exchange rates at the date of the transaction (not retranslated). Non-monetary items measured at fair value are translated using the exchange rates at the date when fair value was determined.

#### **1.7 Reserves**

Equity comprises the following:

- “Share capital” is the nominal value of equity shares
- “Share premium” represents the excess over nominal value of the fair value of consideration received for equity shares, net of expenses of the share issue.
- “Other reserves” represents a distributable reserve arising as a result of the reduction of the Company’s share premium account in January 2014.
- “Translation reserve” represents the differences arising from translation of investments in overseas subsidiaries
- “Retained deficit” represents cumulative retained losses attributable to holders of ordinary share of the Company

## COMPANY NOTES TO THE FINANCIAL STATEMENTS *(continued)*

For the year ended 31 December 2014

### 9 SHARE CAPITAL

	At 31 December 2014 US\$	At 31 December 2013 US\$
<b>Authorised</b>		
21,211,381 Ordinary shares of US\$0.16103 each	3,415,669	3,415,669
<b>Allotted, called up and fully paid</b>		
21,211,381 (2013: 21,211,381) Ordinary shares of US\$0.16103 each	3,415,669	3,415,669

On 10 December 2013, the Company passed a resolution that each of the issued ordinary shares of £0.001 each in the capital of the Company be consolidated into 100 ordinary shares of £0.10 each. Such ordinary shares of £0.10 each having the same rights and being subject to the same restrictions as the existing ordinary shares of £0.001 each in the Company, as set out in the articles of the Company.

Also on 10 December 2013, the Company passed a resolution that the nominal value of each issued ordinary share of £0.10 in the capital of the Company be redenominated into US dollars using the mid market £/\$ exchange rate of 15 November 2013 of US\$0.16103 to take place immediately after the consolidation of ordinary shares

During the year, the Company issued 1,058,196 ordinary shares of US\$0.16103 for a total consideration of US\$1,862,425 excluding share issue costs, and including a share premium of US\$1,692,024. These were issued in settlement of a trade creditor's invoice.

At the General Meeting held on 10 December 2013 a special resolution was passed that the 2012 share premium account of the Company be reduced from \$74,585,985 to \$0, and the amount by which the share premium account is so reduced be credited to a reserve effective on 14 January 2014. This has been called "other reserves".

	Exercise price (p)	At 1 January 2014	Issued in year	At 31 December 2014
Warrants granted September 2012	0.25p	168,181,818	-	168,181,818
